

URGENT NOTICE

TO ALL RESIDENTS

Due to the high water usage, the well and water treatment plant has been unable to meet the demand. We are asking for your **immediate** cooperation in reducing the amount of water being used inside and outside your homes and businesses **effective immediately Monday June 5, 2017** until further notice.

This is of extreme importance to guarantee adequate water is available for all residents, possible fire and medical emergencies.

Please note a few of the following water conservation tips:

- Avoid/limit outdoor watering
- Limit laundry loads/only wash full loads
- Don't leave water running, unplug water softeners etc.
- Limit the amount of baths and showers taken
- Flush the toilet as little as possible

We will be updating residents when regular usage can resume. Please watch for updates on Town website, Facebook, IH Wolseley News and Twitter

The Town of Indian Head thanks you for your co-operation!
