

UPDATE NOTICE TO ALL RESIDENTS

June 15, 2017

Huge thanks to everyone for your efforts to conserve water!! The water storage tank appears to be handling the new odd/even watering schedule. The Town asks that residents continue with this odd/even watering practice until future notice. This means all even numbered civic addresses are permitted to water on even numbered days of the month and odd civic addresses on odd numbered days of the month.

With the water storage tank remaining at consistent safe levels, the Town will be incorporating a schedule at the bulk water tower for agricultural users. This schedule will allow RM residents to haul water for household purposes on all days of a month and for agricultural purposes on odd days of the month. This will continue until further notice.

We are still reminding residents to be mindful with their water usage and watering regimes so we can avoid future shortages during the summer months ahead.

We thank everyone for their efforts to conserve water! Keep up the great work!
